

PAPANDU

PARTNERSHIP BRIEF FOR DESIGNERS

DESIGN BRIEF

A visual direction for the new logo, graphic identity, campaign artwork, and upcoming Papandu design collaboration.

CORE IDEA

Papandu is a youthful creative community built around fashion, culture, friendship, freedom, and self-expression. It brings together a generation of individuals who see style not just as clothing, but as a language: a way of telling their own stories, celebrating their roots, and connecting with others who share the same spirit of authenticity and creative freedom.

CREATIVE GOAL

Make the brand feel recognisable, energetic, expressive, and intentional. Every visual choice should carry personality and confidence while staying clean and purposeful, avoiding clutter and ensuring the brand always feels sharp, alive, and true to itself.

Want me to match the Papandu description to this same tone so both pieces read consistently, or are you pulling these into a larger brand document I can help structure?

BRAND & VISUAL DIRECTION

WHAT WE SHOULD FEEL LIKE

Papandu should feel youthful, expressive, creative, confident, playful, and community-driven. The visual identity should feel like a real culture rather than a generic clothing label.

DESIGN PRINCIPLES

- ★ **Bold:** Strong graphics, confident typography, and clear visual impact.
- ★ **Playful:** Stars, symbols, unexpected details, and visual energy.
- ★ **Youthful:** Fresh, expressive, culturally relevant, and easy to connect with.
- ★ **Clean:** Even when the design is loud, the composition should stay intentional.
- ★ **Distinctly PAPANDU:** Build a recognisable language around the star, colours, logo, and typography.

LOGO & COLOUR SYSTEM

WHAT WE SHOULD FEEL LIKE

The new Papandu logo is built around a star-in-a-box symbol and a bold PAPANDU wordmark. Stars are a recurring visual

element and they should become part of the wider visual language.

PAPANDU

DESIGN LANGUAGE

- ★ Star motif should remain recognisable and flexible across layouts
- ★ The logo should work in full colour, one-colour, small-size, and social-media formats.
- ★ Explore strong typographic treatments without losing the recognisable PAPANDU identity.
- ★ Use the core colours as a system, not as decoration. Colour combinations should feel intentional.

COLLABORATION BREIF

WHAT WE ARE CREATING

We are collaborating on a visual introduction to Papandu's new logo and evolving graphic identity. The work should introduce the new symbol, establish the new visual language, and give people an immediate sense of what PAPANDU is.

DESIGN LANGUAGE

- ★ PAPANDU is a creative youth culture brand with a strong sense of community.
- ★ The brand is expressive, colourful, confident, and playful.
- ★ The star represents the Papandu identity and should become a recognisable visual signature.
- ★ The identity should feel premium enough to be taken seriously while keeping its youthful energy.
- ★ The work should feel original and ownable, not like a template or generic streetwear graphic.

Bring your own creative interpretation. The references in this brief establish the world, not a strict template. Experiment with composition, typography, stars, colour blocking, texture, and movement while keeping the PAPANDU identity recognisable.

PROVIDED ASSETS

- ★ New PAPANDU logo files.
- ★ Existing PAPANDU artworks & designs.
- ★ Brand colour references.
- ★ Additional visual references & inspiration.
- ★ Typography & visual elements.

THANK YOU
